# mini EDGE

5 channel All-in-One Switcher

mini-edge is a controllable live broadcast recording and directing station with 5 video inputs, 8 audio inputs and multiple output interfaces, supporting multi-layer and mixing control. It is not only suitable for multi-platform live broadcasts and remote audio and video conferencing, but can also be used for various live events such as stages, education, press conferences, and sports games, while providing high-quality functions. while having excellent cost performance.
| Education | Sport | Worship | Event | Conference |

Full-Featured Keyboard Controls at a Glance

The onboard 5.5-inch HD full-color screen monitors all input channels and output images in real time. Full-featured keyboard, fast control of any function.
Configurable HDMI Output for live presentations

HDMI PVW port – configure for multi-view or AUX each input

Take Full Control

Integrated PTZ Camera Control

Forget about having multiple separate control panels for video and camera control. mini-edge brings it altogether, supporting industry standard VISCA protocol for PTZ control directly from the mixer. Control up to four separate cameras with pan, tilt, zoom and focus.

Precise Fingertip Control

Integrated joystick provides tactile control for each PTZ camera. Used together toggle, pan, tilt, zoom and focus from the front panel. Joystick and toggle are additionally dynamically assigned to settings including scale, position and crop for enhanced useability.

Pro Color Rendering and Layers

One-Click Chroma Key

Enable presenters to be in virtual studios and environments with Chroma Key.
Select from standard key colours and enable Chroma Key directly on mini-edge without the need for an app. Refine colour selection and tolerances from the touch screen to optimise.
Pro Level Audio

Capture Every Sound

With two separate insert audio ports, mini-edge has got external balanced mic and line level audio covered. All two ports accept TRS ¼in jacks, with MIC supporting direct XLR connection too. Plus there is 48V phantom power directly from mini-edge available too on MIC, negating the need for a separate DI, and instantly making studio mics native connections as they should be.

Follow the Action & Always be In Sync

Set AFV for any HDMI embedded audio so the audio switches with the video source to PVW and PGM automatically.

Configure audio delay for MIC inputs or a camera input to keep audio in sync with the video.

Monitor & Set Live

Pro mixer audio level controls are front and centre on mini-mx, enabling "in the mix" with full monitoring familiar and accessibility

⍟ Bluetooth audio input supports.

Pro Level Video

Sophisticated Multi-Layer Presentation

Assemble visuals with multiple layers of video and graphics. mini-edge offers 2 full video layers plus background image, two graphic overlays from the media pool as well.

Dynamically Scalable

Each of the two assignable video layers may scaled, positioned and cropped with these placed over the background.
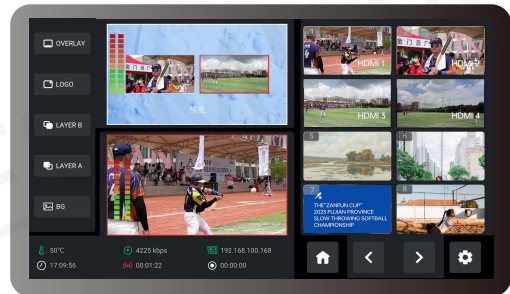

Multiple Layer Sophistication

As well as dual video sources, add also media pool graphic overlays for lower-thirds and branding logos, switch seamlessly between graphic elements.

Fluid Interactive Operation

Select any source or preset with control panel thumbnails and iconography that makes mini-edge a natural an intuitive way to present and stream.

Transition Like a Pro

mini-edge includes multiple DVE transition effects from preset to program, adding sophistication and effect.

Leverage the Power of Presets

Save and store up to 10presets on mini-edge, allowing 1 press recall of all scene settings including PTZ focuses. Make use of smooth transitions.
Go Remote

mini-edge web app companion apps for laptop and mobile allow remote use from the mini-edge and the video connections. Fully integrated with the RGBlink TAO cloud control streams remote too with TAO cloud.

Pro Streaming

Enhanced Streaming

H.265

Take advantage of advanced H.265 compression and encoding for higher performance streams.
