

# FUNC MOBILE MOTORIZED FLIPSTER 2

When you need to move in all directions

Making it easy to work with big touch displays

The updated Func Mobile Motorized Flipster 2 will help you move around, rotate, and - perhaps best of all! - height-adjust your touch display.

The stable and easy-accessible design is perfect for many rotatable touch screens such as Samsung Flip, Flip 2 in sizes 55" and 65", Microsoft Surface Hub 2S 55", but also other large displays that need to be rotated for storage reasons. Now also with VESA 350x350 and 400x200.

You can easily flip the display from landscape to portrait orientation by hand - no tools needed! Furthermore, the smooth and quiet motorized height adjustment ensures that the user can work ergonomically, whether very tall, short, standing up or sitting down - the Func Mobile Motorized Flipster is excellent for people with different needs.

A storage box is included. The neat wheel base and sturdy, lockable wheels (100 mm), makes the unit easy to handle. The floorstand is developed for touch displays up to 65".

Max 65" can be rotated in lowest position of the floorstand. Finish: White or Black.

NEW! Now available also in **Black finish!**
