

FUNC BRACKY PORTRAIT STRETCH

How slim is your message?

A variable mount for stretched landscape displays

Simple and fast to mount. Func Bracky Portrait Stretch can be locked with a screw (included) or padlock (not included) for improved personal safety and security against theft. Can be tilted 5 degrees. Suitable for stretched displays, typical sizes are 37" and 86" mounted in portrait orientation. Please note that the vertical bars only have VESA 400 and 600.
