

## GENERAL PRODUCT FEATURES:

- compatible with all mobile AV Stumpfl screen systems
- adjustable in steps of 6" (152,4mm)
- low transport volume
- hardened aluminum alloy EN-AW 6063
- optional black anodized
- 5 years of warranty

### Set up height:

**min:** minimum height of the bottom edge of the frame

**max:** maximum height of the bottom edge of the frame without additional safeguarding

Set up height is variable in steps of 6" (152,4mm).

Set-up heights are points of reference and have to be adapted in accordance with the screen size and ambient conditions. Set-up height based on absolute vertical positioning without additional force effects (e.g.: wind, air condition draught,..) Leg supports have a telescopic element that is thigtend with two wing screws.

### Scope of delivery:

MONOBLOX 32, MONOCLIP 32 and VARIO 32 come with T32-Legs.

MONOBLOX 64, MONOCLIP 64, VARIO 64 and VARIOCLIP 64 come with AT 32/64 legs.

### Recommendations:

When a high degree of stability is needed, especially with large screens or a high set up height we recommend using following legs: AT 32 for MONOBLOX 32, MONOCLIP 32 and VARIO 32 - AT48 or AT 64 for MONOBLOX 64, MONOCLIP 64, VARIO 64 and VARIOCLIP 64.
